

Desert Dirt to Black Gold

Soil Matrix and Soil Building are some of the wonders you will learn in a class the Smiling Dog Learning Center is holding featuring Don Titmus. He will share with us the complexities of compost, mulch, soil conditioning and much more as time allows.

Don has a Gardening Service and a Permaculture practice in the east valley, he lives locally and teaches wherever life takes him.

Don has been growing food in his organic garden at his home for nearly 2 decades. "The proof is in the dirt."
